

Yeonu Yi

iOS Engineer

yeonu0616@gmail.com · +44 (0)7562 743359 · London

An iOS Engineer with a background in design, bringing a balance of technical expertise and creative problem-solving. Experienced in building consumer-facing products at scale, with a passion for crafting intuitive user experiences and embracing new technologies.

EXPERIENCE

iOS Engineer

DICE FM · 2022 – Present

- Developed and maintained high-quality consumer-facing iOS features using Swift and SwiftUI, including snapshot and UI testing.
- Monitored app performance using Instruments, identifying and resolving bottlenecks to improve responsiveness.
- Worked with Fastlane and Bitrise to support CI/CD pipelines and automate workflows.
- Supported accessibility standards including Dynamic Type across the application.
- Led Swift 6 migration of a large-scale SDK, addressing Sendable conformance, actor isolation, and concurrency errors across the codebase.

iOS Developer

Ai4Process · 2020 – 2022

- Designed and built iOS applications using Xcode, Swift, CocoaPods, RESTful APIs, and Core Data.
- Tested iOS applications and resolved bugs prior to final release.
- Maintained and improved existing codebase quality and architecture.

iOS Developer & Designer

Yeonu Studio · 2020

- Personal iOS project — designed and developed an independent app from concept to release.

ABAP Developer

DBDS · 2017 – 2019

- Developed, tested, and documented SAP Reports.
- Developed Liquid UI scripts and tested on mobile devices.
- Collaborated on archiving programmes and troubleshoot application issues.

Designer

Freelance · 2014 – 2017

- Freelance design projects including promotional materials, musician album cover designs, and digital and glass artworks.

Administrator

Kookmin University · 2014 – 2016

- Supervised academic affairs and assisted with the Student Management System.
- Maintained official records and facilitated cross-departmental communication.

SKILLS

Languages

Swift

Frameworks

SwiftUI, UIKit, Combine, XCTest

Concurrency

Swift Concurrency, async/await, Actors

Architecture

MVVM, MVC

Tools

Xcode, Instruments, Fastlane, Bitrise

Other

SPM, CocoaPods, RESTful APIs, Core Data

EDUCATION

Ssangyong Institute of System Technology

Certificate — Computer Science & Development · 2017

Kookmin University

MA — Ceramic Design · 2014 – 2017

Kookmin University

BA — Ceramic Craft · 2009 – 2014

LANGUAGES

Korean — Native

English — Professional
